Infrastructure Victoria
Level 33
140 William Street,
MELBOURNE VIC 3000

Dear Sir/Madam,

RECYCLING & RESOURCE RECOVERY INFRASTRUCTURE – EVIDENCE BASED REPORT

Thank you for the opportunity to provide feedback on the initial stage of Infrastructure Victoria’s “Recycling & Resource Recovery Infrastructure Evidence Based Report”.

Council Officers have undertaken a review of the report including the associated reference documents and provided our comments to the Municipal Association of Victoria (MAV) for inclusion in the MAV’s submission on behalf of local government to Infrastructure Victoria.

The City of Greater Dandenong wishes to advise it fully supports the MAV’s submission to Infrastructure Victoria on the “Recycling & Resource Recovery Evidence Based Report”.

Should you require any further advice please contact council’s Service Unit Leader Parks & Waste, Mr Philip Robertson, on 8571 1769 or via email, phil.robertson@cgd.vic.gov.au

Yours sincerely,

Charles Taveira
Manager
INFRASTRUCTURE SERVICES & PLANNING
This is an important message. If you need assistance in your language and the operator will organise an interpreter. Ask the interpreter to transfer you to the person who signed the letter.

When you call this number state your language and the operator will organise an interpreter. Ask the interpreter to transfer you to the person who signed the letter.
